

# PLANTS FROM ECKE GERANIUMS LLC - OGLEVEE PRODUCTS

## PRODUCT ASSORTMENT

### **Geraniums – Oglevee's specialty!**

Zonal – Popular Patriot, compact Maestro, dark leaf Candy series  
Ivy – Global series, plus unique and classic varieties  
Brocade (variegated), Scented, and Pillar Geraniums  
Regal (Martha Washington) – easy to grow and love!

*PAC varieties are bred by Elsner PAC, Oglevee's European partner.*

**Begonia hiemalis Solenia & Spectrum** make spectacular pots

**Please note:** Begonia Doublet, Double Impatiens Gemini and New Guinea Impatiens Gem series are now available through Ecke's Flower Fields program.

### LINERS

Liners (rooted cuttings) come in Plant Paks or 105 trays, as noted.

**105 tray sold as 100** (size code 660)

**104 Plant Pak sold as 100** (size code 650) – 4 strips of 26 plants are packed together to total 104 plants, sold as 100.

**26 Plant Pak sold as 25** (size code 590) – 1 strip of 26 plants

**Regal Geranium liners** are bud-initiated, single stemmed plants.

They have been cooled and lit to initiate buds, for a quick, easy finish in 8 to 10 weeks.

### UNROOTED CUTTINGS

**Sold as 100 Unrooted Cuttings (URC) per variety** (size code 851).

Under certain circumstances unrooted cuttings (URC) can increase your profitability. But, URC are not for everyone. Before trying them, make sure you've considered the extra costs such as heat, bench space, chemical sprays as well as the risks associated with having the plants in your greenhouse for a longer time, compared to rooted cuttings. To get the best performance from URC you must be equipped to properly handle them: root-zone heat, automatic misting systems and sterile benches, pots and soil are required.

**Scented Geraniums are not available as URC. Unrooted Regal geranium cuttings** require ideal propagation conditions to set roots, and 25% rooting loss should be planned. Price advantages of URC can be offset by lack of uniformity in rooting, and extended finish cycles created by variability in budding techniques.

Detailed culture for URC may be found at [www.oglevee.com](http://www.oglevee.com), or call us for a copy.

#### PLANTOPIA HANGING BASKETS

This hanging basket is designed of high quality injection molded plastic, with snap-on plastic inserts to accommodate planting on the sides of the basket. Simply snap the pocket insert out, place your plant, fill with soil mix, and repeat. When planted, you see a large mound of flowers from all angles, not the hanging basket. Each basket comes with the necessary number of plastic inserts (8 or 12 inserts for the 14" basket, 6 inserts for the 12" basket) and a chain hanger. Great for high end sales. Shipped direct from the manufacturer. Made in the USA.

Plantopia Pricing: See pg. 44.
